

SUSTAINABLE LAMP: BALI

Shade: made of bamboo, biodegradable, handmade.

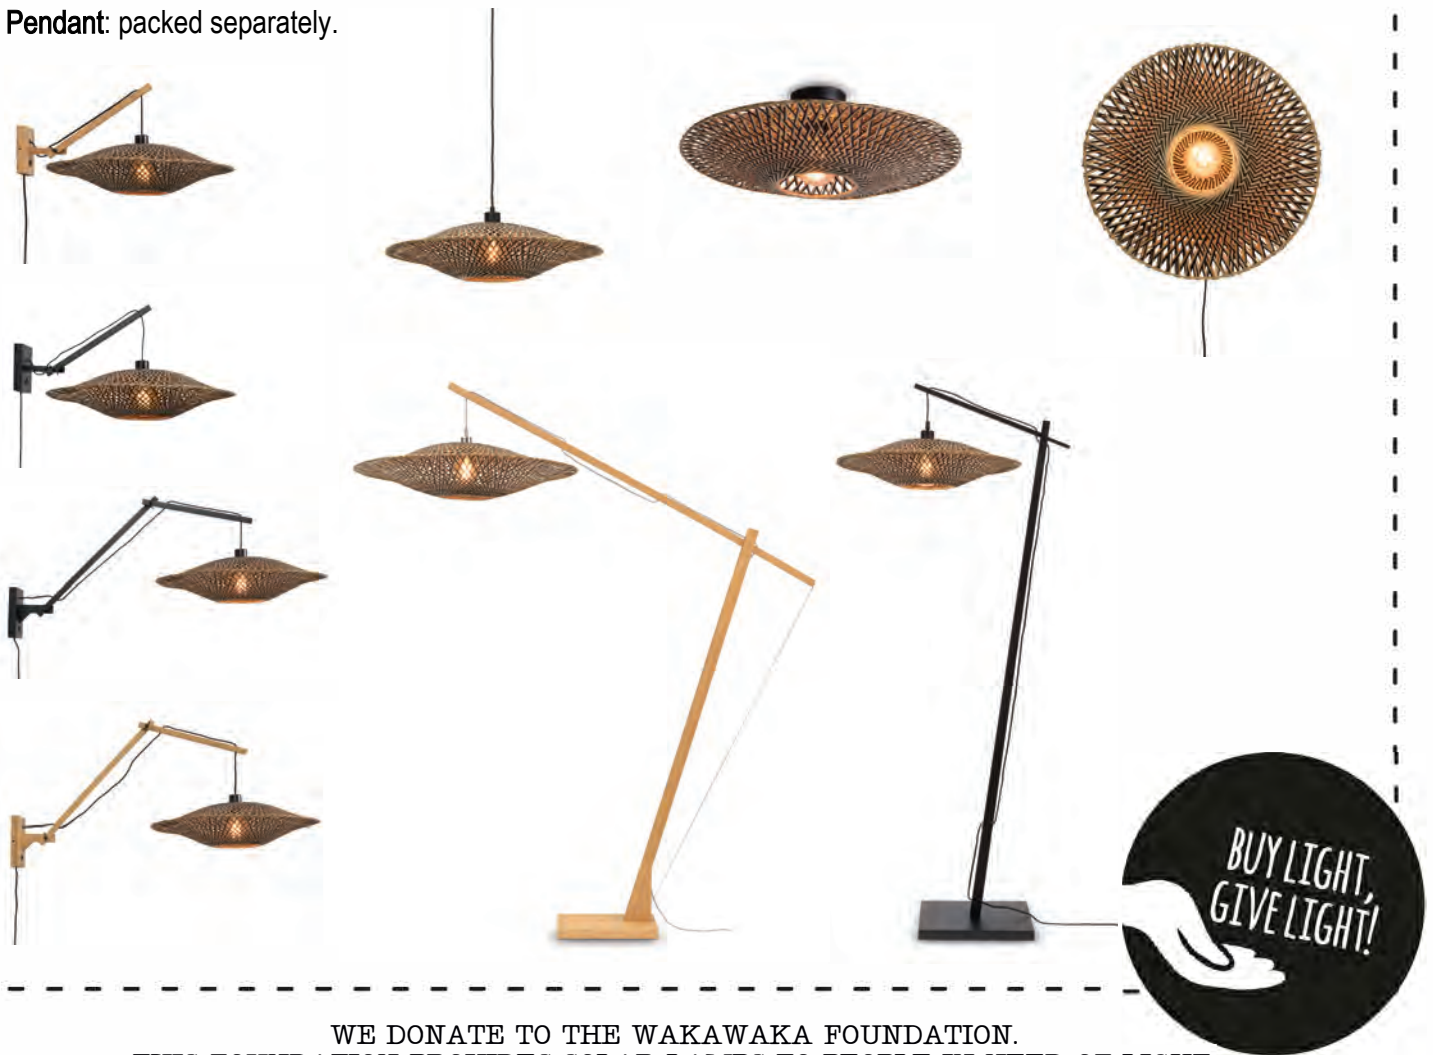

Bamboo is a strong, flexible and fast-growing plant. Once cut new shoots grow back easily from the roots. It can be harvested in 3-5 years. A bamboo plant produces 35% more oxygen than a tree and is grown without pesticides or chemical fertilizers. Bamboo has many uses including construction, food, fuel and clothing. The bamboo used for this lamp is grown, harvested and hand woven on one location in Vietnam, providing work and income for the local community.

Tip: if shade does not hang straight adjust as follows;

- loosen socket-ring inside shade,
- move socket on top of shade in correct position,
- fix socket-ring inside shade again.

Warning: to avoid overheating always use LED light bulbs. Never use incandescent light bulbs.

Pendant: packed separately.

WE DONATE TO THE WAKAWAKA FOUNDATION.
THIS FOUNDATION PROVIDES SOLAR LAMPS TO PEOPLE IN NEED OF LIGHT.
READ MORE ABOUT THE GOOD WORK OF WAKAWAKA ON OUR SITE.
AND FOR EACH LAMP WE SELL, A TREE IS PLANTED!

THANK YOU FOR BUYING THIS SUSTAINABLE LAMP
